

# PROSUN®

Natural Sun Protection

## TAKE CARE OF YOUR SKIN IN FRONT OF THE SUN

**PROSUN®** is a stabilized mixture of fat-soluble sunscreens tolerated by the skin and mucous membranes, with low toxicity and protective action against UV-B radiation and minimal UV-A protection.

The solar factor obtained by adding 1% of **PROSUN®** is equivalent to a value of 1 SPF in the final product.

### PROPERTIES

- Tolerable sun filters for skin and mucous membranes
- Low toxicity
- Protection against UV-A and UV - B
- Stabilized filter mix
