NEOFIN® Hair

Softness and hydration in your hair

NEOFIN® HAIR is a multifunctional conditioning agent with butters and vegetable oils.

It can be used in hair & skin formulations. In hair applications provides excellent wet combability, reducing static and a perfect conditioning without build-up effect.

In skin products, it provides hydration and a pleasant softness.

NEOFIN® HAIR can be used in the formulation of leave-on conditioners, rinse-off, detangling creams, hair dyes, creams, body milk and hair straighteners.
